

Meritor Part

Meritor Part - Meritor is a premier international dealer that is proudly established on a one hundred year custom of quality and service. They focus on a broad range of integrated systems, modules and parts to original machine manufacturers and the aftermarket for the transportation and industrial trades.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage within the international operations. The business values all their clients and wants to ensure their success while anticipating their various requirements. Meritor begins with a culture that values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 people, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

Meritor strongly believes in just employing future focused workers. These top-caliber individuals could rapidly adapt to changing environments and freely demonstrate the level of performance and commitment necessary to obtain results for the competitive market environment. The business empowers their teams to make sound business decisions to be able to enhance the overall success of the company. In return, Meritor provides all of their workers various chances for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering that comprise axles, drivelines, braking and suspension systems meant for heavy duty and medium trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives which represent the entire Asia Pacific region. This particular team is also responsible for supporting the requirements of all their international engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group who is committed to ensuring optimum progress at their production plants and aftermarket distribution facilities which are situated on 5 continents and in 19 countries.

The supplier development network is particularly located to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making in every part of the business. The DFSS or likewise known as Design for Six Sigma ensures product reliability within every region. The team is likewise included transactional Green Belts who utilize Six Sigma tools to business methods and apply lean methods.
