

Rockwell Part

Rockwell Part - AxleTech International is a premier dealer in the world of specialty vehicle drive-train systems and parts together with off highway vehicles. The business prides itself on being its clients' preferred supplier. AxleTech strives to meet and exceed their clients' expectations for service, technology, delivery and quality. They believe in working in an environment which encourages the utmost integrity with empowered collaboration, combined with a unyielding pursuit of results.

AxleTech International falls under the umbrella of General Dynamics. They place great emphasis on being an environmentally conscious company and offering a safe environment for their workers to work in. What's more, they have implemented numerous programs in the company to be able to help convey these values within their business policy. AxleTech happily shares this policy and welcomes interested parties to provide them with any comments or questions, because they are glad to share and promote this policy with a greater understanding of their efforts. They are very devoted to preserving and improving the natural world. AxleTech has an EHS program that not only protects the natural environment but which also actively protects their neighbors and employees as well.

AxleTech specializes in the manufacture and designing of planetary axles for both military and commercial applications, which may include anything from airport ground support to construction equipment. They take great pride in being a ground-breaking drive-train solutions provider too. AxleTech particularly designs axles to meet specific application demands. They have more than 1000 various axle specs in their present offering. With over one hundred years of knowledge and history, AxleTech proudly supplies the most complete solution for any of your axle needs. The business is well known in several military and commercial applications. They provide complete axle assemblies used for aftermarket replacement requirements, along with servicing axle needs for OE production. Their high mobility ISAS have added details that can be found in the "ISAS" product selection.
