

Forklift Spreader Bar

Spreader Bars for Forklift - Proudly operating ever since the year 1974, ELME Spreader AB is the largest independent spreader manufacturer in the globe. They have been a dedicated producer of spreaders for various applications like for instance the swap bodies, trailers and handling of containers.

Engineering is done in-house by way of using all of the latest CAD systems and FEM tools. The ELME business presently has more than 125 personnel. Their spreaders are supplied to reach stackers, straddle carriers, lift trucks, gantry, quayside and ship-to-shore cranes all-around the globe.

The product series of ELME consist of numerous spreaders intended for a variety of container and trailer handling operations. Some of their inventory comprise: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers as well as a wide range of additional parts.

Manufacturing and production of ELME products are developed in highly automated purpose built factory. In the year 2008, they made one thousand one hundred fifty spreaders by making use of quality components so as to guarantee dependability and high standards. Major features of ELME consist of design simplicity, market feedback and innovative modular spreader concept.
