

TCM Forklift Part

TCM Forklift Parts - Forklift trucks are a major player in the material handling field of every international business. Transporting industrial goods takes place each and every day on our hectic planet. Originally innovated as industrial vehicles during the 1930s in the U.S., lift trucks gained recognition after World War II in the 1940s. Becoming an efficient and reliable means to material handling solutions, the practicality and need of these equipment spread internationally.

First started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's very first lift truck. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation in the business. TCM started constructing lift truck manufacturing sites outside of Japan during the 1980s and is currently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

TCM proudly makes many models of industrial trucks with more than 50 years of accumulated expertise and technology, making their products used and recognized all over the globe. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and intends to become a world-class leading business.
