

## Clark Forklift Parts

Clark Forklift Part - At this time, there are at least 350,000 Clark forklifts performing worldwide, and in excess of 250,000 in commission in North America alone. With five main lines across the world, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, duel fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique models of lift trucks, with components covering more than 120,000 specialized parts for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your parts needs offered by Clark Totalift.

Clark's extraordinary Parts Distribution Facilities are conveniently stationed in Louisville, Kentucky, which serves both their customers and dealers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Motivated to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Clark Totalift has a really impressive global support network. With over 550 locations worldwide, supplier representation in over 80 nations and 230 locations in North America, their high level of dedication to their clients predominates the material handling industry.

By pioneering the operator restraint system safety feature, Clark proudly remains a leader of innovation in the industrial equipment and automated lift truck industry. This exceptional commitment to safety is currently a customary feature on every lift truck.

Clark has a uncompromising mission to have the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be internationally certified with quality standard ISO 9001 in all of its manufacturing plants. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has selected the system of "Lean Manufacturing" at all of its assembly plants for the reason that this technique is particularly economical and permits minimal use of resources. Established to guarantee maximum efficiency, this system is designed to find and acknowledge the most efficient methods for manufacturing plant stewardship. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working together, Clark's product suppliers and engineers communicate towards enhancing product effectiveness while minimizing expenses. The new value engineering program combines progressive product growth and provides improved consumer support and service within the industry.
