

## Advance-Nilfisk Part

Advance-Nilfisk Part - Think about how tiresome it will actually be to tidy up your home after having a large party, with out assistance from cleaning machines. Back in the day, the time upholstery and carpets had the dirt beat out of them by hand; cleaning cloths, brushes and brooms were the leading cleaning supplies of that time.

The man who established Nilfisk-Advance, P.A. Fisker, started out as an electrical engineer who really liked to work on electrical motors. After establishing his company in the year 1906, he started to produce motors to drive coffee grinders, fans, machine tools and drills. Mr. Fisker's dream from the beginning was to have a global company selling products internationally.

The Nilfisk C1 was a revolutionary breakthrough in the cleaning industry. Mr. Fisker invented a remarkable, ground breaking vacuum cleaner that can be operated by a single individual in view of the fact that it only weighed 17.5 kilos! This invention came in a time where numerous cleaning equipment were very big and required at least 4 operators, thus, the Nilfisk C1 transformed everything and developed the method we clean forever. The mastermind behind these first cleaning machines remains unparalleled. Cleaning machines offer an excellent solution to an ongoing crisis; things get dirty and have to be cleaned frequently, without a lot of effort.

Little by little, the business Nilfisk-Advance developed all through the years. During the the early part of the nineteen eighties the company developed more rapidly when the business became a part of the NKT Group. With new owners on board, they focused on driving Nilfisk-Advance ahead within the trade, aiming to be an active global player in producing professional cleaning machines. Nilfisk-Advance is presently located in all parts of the world by gradually acquiring numerous smaller companies so as to develop their product portfolio and presence in new markets. They are really proud to offer various cleaning solutions to suit each and every requirement.
